

ChildWare

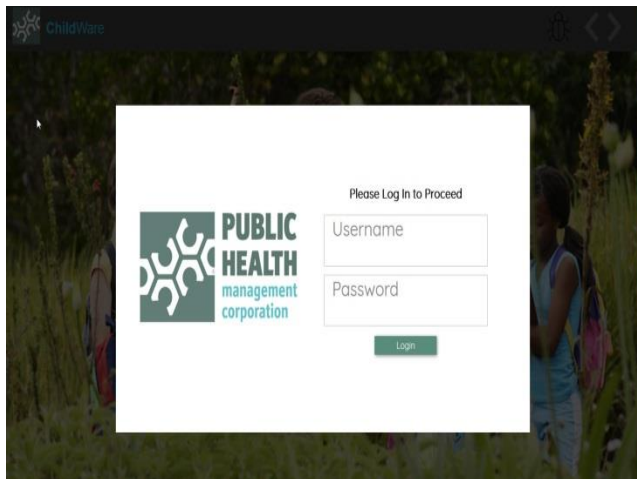

Logging into ChildWare 2.0

This first phase of the newly redeveloped ChildWare is designed to support child care providers that use ChildWare for the PHLpreK program.

Logging into ChildWare 2.0

Open the **Chrome browser** and into the address bar type - **childware.phmc.org** and then press the enter key on your keyboard. You are now at the new ChildWare 2.0 Login Screen.

Reports

Type in your ChildWare Username and Password, and then click the **Login** button. **Click on the PHMC logo**  to access the **Welcome page** with the **Navigation Menu**. Clicking on different headings allows you to navigate around ChildWare 2.0 to perform your tasks. The action buttons on this menu may not be available to everyone – what you see - depends on the user permission level.
